Guidance on how to return your parcel.

If you decide to return your parcel by postal service the Post Office offer several services.

All boots can be sent by Royal Mail Standard Parcel service.

There are two tariffs that apply. Up to 2 Kilo and up to 4 Kilo.
Short boots are below 2 Kilo, some long boots can be above 2 kilo.

Without insurance your parcel is covered to the value of £ 39.- (2009 tariff)
Additional insurance is optional at a premium.

Most standard service parcels posted before 15:00 arrive the following working day.

For parcels over 2 kilo your Post Office may advise you to send it by Parcel Force.
This is a more expensive service with no additional benefit.

The post office also offer a Special Delivery Next Day service.
This is an expensive option and mostly it does not arrive any earlier than a standard parcel

**Where Equitector Ltd agrees to refund the cost of postage, this is restricted
to the cost of the Standard Parcel Service.**
